If you do not receive all pages, please call (858) 720-5178 as soon as possible.

Preparer of this slip has confirmed that facsimile number given is correct: 6632/KXL4

This facsimile contains confidential information which may also be privileged. Unless you are the addressee (or authorized to receive for the addressee), you may not copy, use, or distribute it. If you have received it in error, please advise Morrison & Foerster LLP immediately by telephone or facsimile and return it promptly by mail.

Comments:

Applicants thank Examiner Tran for the courtesy of a telephone call concerning the instant application.

Accompanying this sheet are copies of the response filed February 22, 2001.

The response included 1) a transmittal form; 2) a fee transmittal form; 3) a response to Restriction Requirement; 4) a Petition for extension of time; 5) a change of address request; 6) a check for \$195.00; and 7) a return postcard.

Applicants respectfully request that these copies be entered in lieu of the original which is apparently missing.

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In the application of:

Patrick Mark CURRY et al.

Serial No.: 09/556,833

Filing Date: April 21, 2000

For: IMMUNOADJUVANT PDT
TREATMENT OF METASTATIC
TUMORS

Examiner: Tran, M.

Group Art Unit: 1642

RESPONSE TO RESTRICTION REQUIREMENT

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

This is in response to the Office Action mailed November 22, 2000, time for response to which was initially set to expire December 22, 2000. Accordingly, a Petition for a two month extension of time is included herewith, extending the time for response to February 22, 2001.

Applicants respectfully traverse the Restriction and submit that the asserted basis for the Restriction are insufficient. Applicants thus request the Restriction be reviewed and modified for the following reasons.

The Examiner has stated that Group I (claims 1, 3, 5-9, and 11-16) and Group II (claims 2, 4, 5-7 and 10-15) are "different inventions" having "different functions with different modes of operation and different effects." Applicants respectfully traverse based on the following.

As an initial matter, Applicants note that both Groups have been classified by the Examiner as belonging to class 424, subclass 184.1. Thus regardless of the correctness of the above position, Applicants respectfully point out that there is no search burden present because the search of Group I would be identical to the search of Group II and vice versa. Because no burden of search is present in searching a single subclass (in contrast to the requirement for a "serious burden" at MPEP 803), the reasons for restriction between these Groups are insufficient and the restriction may be properly withdrawn.

Moreover, the only rationale presented in support of the above assertion is that the claims of Group I are directed to methods of treating cancer "which is limited to percentage of patients that can be treated" while the claims of Group II are directed to methods of preventing cancer "which concern different groups of patients not encompassed by Group I." Applicants respectfully submit that this rationale simply does not fit the facts of the claims as presented.

First, the above rationale appears incorrect in asserting that the claims of Group I do not "encompass" the claims of Group II. It is entirely possible that a subject undergoing treatment for existing metastatic tumors (Group I) may also be treated to prevent the development of additional metastatic tumors (Group II). Applicants thus respectfully submit that the above rationale fails to support the Restriction Requirement.

Moreover, the claims of Groups I and II are identically directed to methods comprising one step of administering and a second step of irradiating, with the administered materials being identical in both Groups and the irradiation being with identical light in both Groups. Thus Applicants respectfully submit that the methods cannot be viewed as directed to "different methods."

Applicants note that the language used in the above rationale suggests that the preamble of claims 1 and 3 versus 2 may have been relied upon as the basis for the Restriction Requirement. If so, the Examiner is respectfully requested to make this clear on the record that the preamble of the claims have been accorded sufficient patentable weight to warrant the Restriction Requirement. Applicants note, however, that if this is in fact the Examiner's position, the simple deletion of the preamble would obviate the basis for Restriction.

FAX RECEIVED

MAR 12 2001

GROUP 1600

In the event that the instant Restriction Requirement is maintained despite the above discussion, Applicants hereby elect Group I, claims 1, 3, 5-9, and 11-16, with traverse for the reasons presented above.

Applicants expressly reserve the right under 35 U.S.C. § 121 to file a divisional application directed to the nonelected subject matter during the pendency of this application, or an application claiming priority from this application.

Applicant requests examination of the elected subject matter on the merits.

In the event that the Patent Office determines that an extension and/or other relief is required, applicant petitions for any required relief including extensions of time and authorizes the Assistant Commissioner to charge the cost of such petitions and/or other fees due in connection with the filing of this document to Deposit Account No. 03-1952 referencing docket no. 273012011100. However, the Assistant Commissioner is not authorized to charge the cost of the issue fee to the Deposit Account.

Respectfully submitted,

Dated: February 22, 2001
